

FUTURE GRID SUMMIT 2025

DRIVING INNOVATION AT THE EDGE OF THE GRID

2-4 DECEMBER 2025 | SYDNEY | AUSTRALIA

PARTNERSHIP PROSPECTUS

What is the **FUTURE GRID SUMMIT?**

The role DNSPs could play in the transition has flown under the radar.

But what if (with clever orchestration of DER, batteries and more), local grids could play a major role in delivering reliable, affordable, low carbon energy, with significantly less new infrastructure build?

The **Future Grid Summit** will answer that question, and more, exploring just how innovative approaches and new tech can help transform the grid.

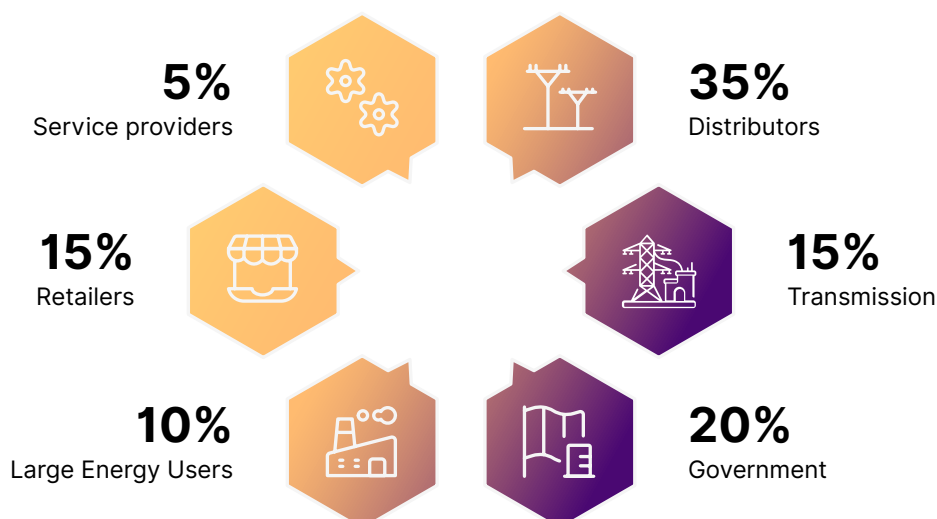

From the organisers of Australian Energy Week, this event will be an opportunity you can't afford to miss.

WHY SPONSOR?

- 1 Engage senior decision makers responsible for the future of the grid, including AI, grid modernisation, DER integration, system resilience and more
- 2 Build brand authority through speaking roles, hosted sessions, and curated networking
- 3 Connect with an intimate audience that includes senior executives and leaders of technology, asset management and innovation teams
- 4 Be seen as a leader in innovation, policy alignment, and commercial impact

WHO ATTENDS?

Future Grid Summit will be dominated by attendees for distribution and transmission, and also feature leaders from generators, BESS developers, retailers and large users.

SPEAKERS

Rainer Korte
Commissioner
**Australian Energy Market
Commission (AEMC)**
Director
CIGRE Australia

Marc England
Chief Executive Officer
Ausgrid

John Cleland
Chief Executive Officer
Essential Energy

Victoria Mollard
Executive General Manager
Economics and System
Security
**Australian Energy Market
Commission (AEMC)**

Alex Wonhas
Chief Executive Officer
Ampyr Energy

Gordon Dunsford
Executive General
Manager - Digital
**Australian Energy Market
Operator (AEMO)**

Paulo Gottgroy
Head of Data Science
and Analytics
Mercury NZ

Vida Cheeseman
Head of Corporate
Communications
Endeavour Energy

Danny Moore
General Manager -
Commercial and Retail
